Shree Sadguru temple shrine started its journey towards the spiritual upliftment of society a long time ago. In this era, people are on the verge of losing the balance of life. They are facing significant mental health issues such as anxiety, depression, stress, and other health problems. The programs that are held and organized are impactful as demonstrations of the Rigvedic rituals, participation in namasmaran (chanting god's name), recital of the biography of saints, and various religious practices. These programs have been running successfully for a few decades and the participation count has been increasing periodically.
